Who can apply for home quarantine?

- If you are older than 65yo
- If you have a dependant younger than 14yo
- If you are pregnant
- If you are handicapped
- If an elderly or child needs extra care
- If you have health conditions such as: diabetes, high blood pressure, cancer, cardiovascular diseases, cerebrovascular disease, and any other health conditions unfit for centralized quarantine (please prepare doctor's note for both your condition and medication you require)

(Other conditions that we've seen approvals for include: recent surgery and eye conditions)

Where and How to I apply?

- For most districts, you apply at the district desk at the airport, this is after you've passed immigrations and luggage claim. Some districts let you apply after you go to your centralized quarantine hotel
- You'll need to wait for your swab test results and home quarantine application results at the quarantine hotel, this process takes 2-3 days

How to get a higher chance of approval?

Getting in touch with your District Committee (居委会) before you fly back to China will give you a better chance of approval. Have as much documentation as possible proving your situation/conditions.

Your home also needs to meet the requirement, you cannot be house sharing, and only 1 family can be quarantined per residential address.

Difficult Districts:

Xuhui and Minhang districts have been known to be difficult to apply for home quarantine as there are many government offices/consulates/embassies here, however this has loosened up and we have seen success cases of approved home quarantine applications as of Mid-May. (Cases were all bringing young children)
